Rent Action Predicted By Bricker

Asserts Extension Of Controls Could Be Necessary In Crisis

WASHINGTON, Oct 6 (AP) — Senator Bricker (R) of Ohio, a leader of past fights against continuing federal rent controls, said today their extension in modified form may be necessary when Congress returns Nov. 27.

Under present law, federal rent controls will expire on Dec 31 except in communities which have voted, either through their local governing bodies or by popular referendum, to extend them for another six months.

The legislation, when it was passed last June, was regarded by friend and foe alike as the last extension of the federal rent ceilings, first applied during World War II

But even before Congress went on vacation last month, talk of another extension had cropped up in the wake of the Korean fighting and the nation's expanding military program.

Chairman Spence (D) of Kentucky of the House banking committee said he would start hearings on a rent control measure as soon as Congress returns. He added that something would have to be done Whether Congress would find time to act in the brief session before Christmas was doubtful.

Although Senator Bricker was a chief spokesman against the last two extensions of federal rent controls, he said Congress may have to continue them again at its November-December session.

He said new construction has nearly caught up with housing needs, but that cutbacks in new home building since the defense program started rolling may leave a shortage that will require rent ceilings.

The determining factors, Senator Bricker said, will be how deep these cuts are and the extent to which they are offset by a reduced demand for housing because of the entry of more men into the armed forces.

He said that if federal rent controls are extended, there certainly ought to be adjustments in the ceilings so that returns to property owners would reflect present price levels and the lower value of the dollar.

"Property owners still are getting returns on a 1941 basis," he said

The present law permits increases in ceilings where there are hardships or inequities Government officials say many have been granted.

Barkley Hints Brannan Plan Will Be Junked

Declares Democrats Are Not Committed To Payment System

MILWAUKEE, Oct 6 (AP)— The Brannan farm plan for the support of agriculture is losing favor with the administration, Vice President Barkley hinted last night

In the first indication that the much-discussed proposal may not be pressed ardently by Democrats in the present election campaign, Mr. Barkley told a news conference last night:

"The Brannan plan is controversial. It is entitled to be studied, but I am not committed to it and administration is not committed to it."

The vice president set the tone for his 15-state tour in behalf of Democratic candidates when he declined to discuss Wisconsin's Republican senators, Alexander Wiley and Joseph McCarthy.

Mr Wiley is seeking re-election and Mr McCarthy has made frequent charges of Communist influences in Washington

"I do not believe it is ethical for the vice president to come into a state and attack office holders," Mr Barkley said.

"I am presenting the permanent, positive and progressive program of the Democratic party. I believe in letting people decide on the record."

He predicted continued Democratic party control of both houses of Congress after the Nov 7 elections

Murray Still Silent About Steel Raise

Policy Meeting Ends Without Disclosure Of Size Of Increase

ATLANTIC CITY, N. J, Oct. 6 (AP) — C.I.O. President Philip Murray said yesterday his steelworkers' union expects "a very healthy and substantial wage increase", but the amount to be sought was kept a secret.

Mr. Murray made his announcement at the close of a two-day meeting of the steelworkers' top policy-makers as the union prepared to reopen wage negotiations with the steel industry. The speculation was that a 25-cents-an-hour pay increase would be asked.

But the steelworkers' policymakers issued a statement talking only of "a general wage increase", a union shop, and other fringe benefits

Mr. Murray, head of the steelmakers' union as well as the C I O, said he would not consider an "escalator scale" to meet the cost of living, instead of an outright pay boost.

The escalator scale, providing for pay increases as the cost of living rises, has been incorporated in the C I O. auto workers' contracts

The steelworkers' announcement said the union would demand that geographical wage differentials be eliminated, and that pay rates in iron ore and nonferrous mining and manufacturing be boosted into line with basic steel wages.

Also to be sought are severance pay provisions, time-and-a-half premium pay for Saturday work, and double-time for Sundays. For employees who work on holidays, two-and-a-half times straight pay will be asked by the union, its announcement said.

"All employees, as a condition of employment, shall become and remain members of the union in good standing during the life of the agreement," the steelmakers said.

Conflict On Draft Needs To Get Airing

Symington To Confer With Marshall, Tobin On Federal Policies

WASHINGTON, Oct 6 (AP)— Two of the top men in the nation's new mobilization-for-defense lineup today sought an agreement on manpower use.

One point at issue was just who should be subject to draft into the armed services, and who should be deferred to meet scientific and technical needs of the mobilization program.

W. Stuart Symington, mobilization co-ordinator, arranged the luncheon meeting with Secretary of Defense Marshall and Secretary of Labor Tobin, to whom President Truman has assigned top manpower responsibilities.

Mr. Symington said yesterday he wanted to try for "an overall, agreed policy".

At the same time, he disagreed with some of the tough draft ideas advanced by Major General Lewis B. Hershey, selective service chief, and said:

"I don't see anything to do but sit down with a great leader like Secretary Marshall and try to solve the problem."

Mr. Symington, chairman of the National Securities Resources Board, took this stand in an address to the United States Conference of Mayors, meeting in special session here.

He did not mention General Hershey by name, but told the city executives he feels that 'our scientists should be given exemption" from military service. He said further that cities should be protected against too heavy loss of police and firemen in view of the possibility of atomic attack and consequent public emergency.

"I have read recently that some people don't feel the same way I do about it," Mr Symington said.

General Hershey's views on who should be subject to the draft were set forth Tuesday night in a speech. He declared that Americans have been sold "a lot of baloney" about the needs of blanket deferment for scientists and professional men.

"We've never had enough scientific people," General Hershey said, "but there never are enough men over there fighting, either."

He stuck by his guns last night, advancing the argument that with the rules as they are, a fighting force of 3,000,000 men simply cannot be reached and maintained within the present 19-25 draft age group.

Civilians In Government Pass 2-Million Mark

WASHINGTON, Oct. 6 (AP) —The Korean war boosted civilian employment in the Defense Department by 86,372 during July and August, the Byrd committee reported today.

The increase brought to 839,-521 the number of persons employed by the department as of Aug. 30.

Total civilian employment in the executive branch of the government rose to 2,042,309 at the end of August The committee said this was the first time it had passed the 2,000,-000 mark since October, 1949.

U.N. Assembly Set To Put Approval On Korea Plan

NEW YORK, Oct. 6 (AP)—The full United Nations Assembly meets today to give thunderous approval to an American-backed resolution containing clear but implied permission for General MacArthur to cross the 38th Parallel.

The resolution, which passed the all-important political committee Wednesday, 47-5, also contains a blueprint for Korea's future as a ward of the United Nations. Wednesday's vote assured a triumph for the West today.

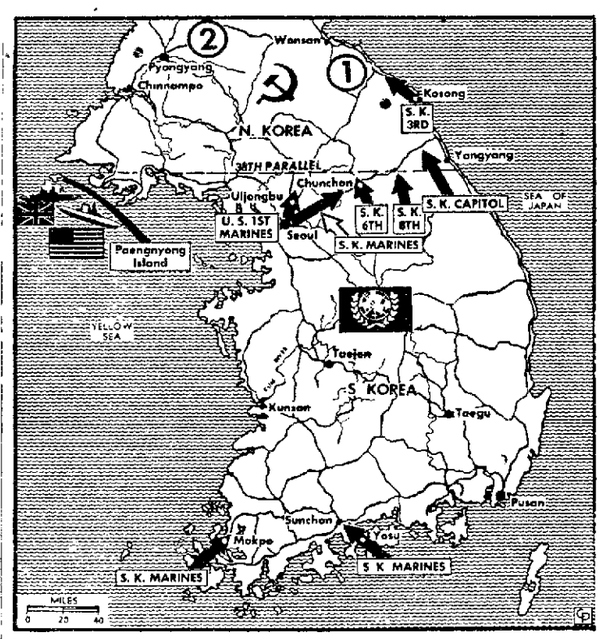
Only the five-nation Soviet bloc opposed the plan in committee. Soviet Foreign Minister Andrei Y. Vishinsky is expected to rise today to continue the fight against the resolution, which is formally sponsored by Britain and seven other countries.

Any Vishinsky tirade is expected to increase the fervor with which the nations who have backed U.N. action against aggression in Korea will support the eight-power proposal as the logical consequence of that action.

The eight powers officially sponsoring the resolution are Britain, Australia, Cuba, Brazil, the Philippines, the Netherlands, Norway and Pakistan.

The U.N.'s powerful 14-nations steering committee agreed yesterday to have the world organization take over the problem of Formosa.

The United States, where Formosa is a hot domestic political issue, proposed the item.



POINTED NORTH. Red troops are reported massing at Wonsan (1), with reinforcements pouring into Pyongyang area (2) from north. The South Korean Third Division is forging northward along the coast from Kosong as other South Korean divisions (black arrows) press north to form a wider front. U.S. Marines captured Uijongbu, north of Seoul, as Paengnyong island was attacked with shelling and carrier planes. South Korean marine units made mop-up landings in the south.

Red Losses So Far Put At 200,000

Convoys Seen From Air Rushing Help Toward Defense Line

TOKYO, Oct. 6 (AP) — South Korean troops swept 20 miles deeper into North Korea today on the Sea of Japan coast.

They reached and passed a point more than 75 miles above Parallel 38, where the bulk of 175,000 United Nations troops are reported preparing a massive follow-up blow for a knockout.

The South Korean's objective apparently was the coastal industrial city of Wonsan.

Air and naval support ranged over or stood by to join the big push against the staggering Red army, now depleted by an officially estimated 200,000 casualties.

Forty thousand of the casualties were counted as Red soldier prisoners of the Allies.

The Red casualty estimates were announced by General MacArthur's headquarters.

Field dispatches said South Korea's Third Division troops were approaching Tongchon, about 32 miles southeast of Wonsan.

There was virtually no Red resistance.

Equipment was abandoned along the route. Red prisoners said the North Koreans had withdrawn northward in great haste for a stand in the Wonsan area. Wonsan is 90 air miles east of Pyongyang, the Communist capital.

Tongchon is more than 220 miles north of Pohang, where the Third Division began its push in mid-September. Closer aerial support for the Third and other South Korean forces on the east coast was indicated by an announcement that the Pohang airstrip would be back in use Saturday.

The Reds rushed to bolster fortifications north of Parallel 38, still ignoring MacArthur's repeated surrender demands and apparently indifferent to the rising toll of men and equipment.

U. S. Fifth Air Force planes spotted two convoys speeding toward the Reds' imperiled defense points Thursday night. Flares lighted the hilly countryside in sharp relief. Pilots reported 84 vehicles and 101 boxcars destroyed or damaged.

The Red defense line stretched from Haeju, on the west coast, to Hwachon on the Pukhan River in the mountainous eastern interior. This was within the short-range bomb-line being kept explosively alive by Allied fighters and bombers.

The line already has been pierced and flanked on the east coast by South Korean forces.

Another spearhead, the Capital Division, wheeled inland 12 miles and overcame brief, bitter Red resistance at Yongdae, about 14 miles north of the Red border.

Other elements of the Capital Division occupied the town of Inje, eight miles southeast of Yachon, 25 miles east and south of the Red defense outpost of Hwachon.

A third spearhead—the Sixth Division — already has captured Chunchon, 15 miles south of Hwachon.

To the west of the South Korean advances, non-Korean troops —the bulk of United Nations forces estimated at 175,000—were regrouping below the boundary.

British and Australians, airlifted to the area from mopping-up jobs in South Korea, were deployed north of Seoul, liberated Korean capital. Ranged alongside these forces were U. S. Marines and infantrymen.

There was no longer any speculation as to whether they would smash across the Red border. The only questions were where and when?

Insane Convict Eludes Police Chase At Lima

Alarms Out After Escape From Officer On Way To Hospital

LIMA, O, Oct. 6 (AP)—Search for an insane escaped convict centered in this area today after the man abandoned a stolen car, broke in a store, and twice eluded Lima police.

The State Highway Patrol maintained road blocks around Lima, and police watched all possible avenues of escape. The convict, described as "dangerous", is believed to be on foot.

The convict, Robert Preyer, 22, had been adjudged insane and was being taken to Lima State Hospital for the Criminal Insane yesterday when he escaped from an Ohio Penitentiary officer at Kenton, 30 miles east of Lima.

Preyer had been sentenced to the penitentiary last June for 1-15 years on a burglary charge from Crawford County.

The penitentiary officer, Lieutenant Tom Templeton, had slowed his car to cross a bridge on a Route 30 detour when Preyer leaped from the auto. The convict then stole an auto in Kenton and roared out Route 67 to the west.

Late last night, two Lima policemen in a cruiser spotted Preyer attempting to transfer a license plate from the stolen Kenton auto to another car in downtown Lima. One of the officers fired at the convict as he fled.

In the car, police said, were about $1,000 worth of implements taken in a burglary at the Turner Implement Co here. Among the items were electric drills, two typewriters, an adding machine and two radios.

About an hour later, police again spotted Preyer in a downtown parking lot attempting to steal another auto. He fled again.

C.I.O. Council Officer Quits, Supports Taft

Claims Union Wasn't Set Up To Tell Men How They Could Vote

NILES, O., Oct. 6 (AP)—Pledging his support to Senator Robert A. Taft, the treasurer of the Trumbull County C.I.O. Council today announced his resignation in protest of "the attempted political domination of the C.I.O. Political Action Committee".

Otto L. Lyman, the treasurer, said he recently had been severely criticized because he appeared in a picture with Mr. Taft when the senator visited here.

In his resignation, Mr. Lyman stated:

"I have been diligent in my work for the American workman, and now I am told that this work is but secondary to the political campaign to purge Senator Robert A. Taft from office.

"The C.I.O. was created for the equality and freedom of the workmen. It was not created as a political party, nor was it created as a dictatorial policy to rule our every action in life."

Mr. Lyman has been a union member since 1914.

WASHINGTON, Oct. 6—Clifton A. Woodrum, who served 22 years in Congress as a Democratic representative from Virginia, died today. He was 63.

Manager, Wife Buy Chester Park

Rock Springs Park in Chester, for over 50 years a popular playground and picnic spot for tri-state residents, has been sold to Mr and Mrs R L Hand of Chester

They purchased the 45-acre tract Wednesday from C A Smith Jr The price was about $70,000.

C A Smith established the park about 1898 before the Chester Bridge was built. Steamboat excursions brought thousands to the area each summer.

Mr Hand has been manager since 1935, when he went into partnership with C L. McDonald It was closed for three years during the war but reopened in 1945.

Mr Hand said numerous improvements are under way Workmen are now tearing out the old bathhouse and pool to make room for increased picnic space.

The island in the boating lagoon will be leveled and the lake drained Mr Hand said the grading and changes will provide a three-level picnic area extending from Carolina Ave at the park entrance to the Chester Hill cliff

Cost-Of-Living Adjustment

G.E. Steps Up Payments To Employees On Pension

NEW YORK, Oct 6 (AP)—The General Electric Co announced today it has given a voluntary "cost of living" increase to 7,000 already retired employees

For the majority of these pensioners, the company said, the increase is between $24 and $49 monthly, with some receiving smaller amounts

Charles E Wilson, G E president said

"General Electric initiated its pension plan in 1912 Then, as now, the objective was to provide an income to supplement employees' savings, and thus assist them in spending their later years in comfortable retirement.

"We recognize, of course, that inflation and the increased cost of living have worked to the decided disadvantage of this group and, in many cases, brought hardship on those who had made worthy contributions to the company and had planned well for their retirement. It is hoped that this amendment to our pension plan will materially assist those who have been so affected"

The amended plan for those already retired, the company said, is designed to bring present pension payments more nearly in line with payments to future pensioners recently negotiated with unions.

The company's pension plan calls for contributions to the pension fund by employees on the basis of 2 per cent of the part of annual pay subject to the social security tax ($3,600 after Jan. 1, 1951) and 5 per cent of any excess.

Currently, employees are contributing at the rate of 2 per cent of the first $3,000 and 5 per cent of the excess.

To help employees not actively at work because of temporary lack of work or illness, the company said, it would protect those workers pension contributions with interest-bearing loans.

Do-Or-Die For Phils

Series Shifts To New York With All Bets On Yanks

NEW YORK, Oct. 6 (AP)—The World Series of baseball shifted from Shibe Park in Philadelphia to mammoth Yankee Stadium in New York today. The sun came out brightly, promising perfect weather.

The New York Yankees, with two straight victories and needing two more to win the world championship, were made prohibitive 1-10 favorites to conquer the Philadelphia Phillies. For today's third game alone they were favored 5-12.

Ed Lopat, a left-handed pitcher with a season's record of 18 victories and eight defeats, was the Yankee starting choice. Manager Eddie Sawyer of the Phillies had not made up his mind. He was considering Ken Heintzelman (3-9) and Bob Miller (11-6). He had already used his two great stars, Jim Konstanty and Robin Roberts, in losing the first two games by scores of 1-0, 2-1.

Charles M. Kierst, 59, a fireman from Auburn, N. Y, was first in line for a bleacher seat at the opening New York game. He first arrived at 7 30 a. m. yesterday, but was asked by police to return at 5 last night, which he did.

Second was Thomas Maxwell Walkey, 39, of Winnipeg, Canada. Six others joined the line during the night, including Mrs. Margaret Steiner, 51, of New York.

At 7 a. m. the line had grown to 500. Stadium gates opened at 9 a. m., when 14,000 unreserved seats and 6,000 standing room admissions went on sale.

A few placards and many pennants brightened the scene outside the Yankee Stadium gates. One placard read, "Come on, Phillies!" But the big majority of signs were on the Yankee side.

Miss Mary Barbato, 27, of Corona, Queens, near the head of the line, carried a large cowbell bearing the name of Joe DiMaggio, whose spectacular home run in the 10th inning decided yesterday's game.

Pittsburgh Papers Still Locked In Strike

PITTSBURGH, Oct. 6 (AP)— There's no sign of an agreement in the strike of A.F.L. mailers which has forced the shutdown of all three Pittsburgh daily newspapers.

No immediate negotiating sessions are in sight, although a federal conciliator is standing by.

Robert Chambers told police an outboard motor valued at $119 was stolen Wednesday night or early Thursday from his service station at Pennsylvania Ave. and Mulberry St. The motor was taken between 9.30 p. m. and 7:45 a. m. from the grease rack section of the building, he said.

Cruiser Bidding Date Set

Bids for Chester's first police cruiser will be opened at noon Monday, Oct. 16, in City Hall. The Lions Club turned over $963 to City Council Monday night, matching the $800 council put up.

Perfume That Clings

Q.—Dear Penny: I adore perfume, but for some reason or other its fragrance just does not last on me. I have told several of my friends that I want a new perfume, but first I must find out about a lasting one.—Mrs. A. W.

A.—A particularly good idea for women who claim that perfume does not "stay with them" is a Liquid Skin Sachet. It smooths on the skin very easily, and lingers longer because of its sachet base. It has a slower rate of diffusion and evaporation than any other type of fragrance. Try this Houbigant Chantilly Liquid Skin Sachet. Only $1.75 plus tax at D. M. Ogilvie & Co.

Three Short Months

THREE months ago yesterday, on a rain-drenched hill south of Osan, an American soldier squeezed a careful shot from his rifle at a North Korean tank.

Thus began U. S. ground action in America's second war within five years.

The rifle against the tank was symbolic of those early days of this war. But its course has changed completely in 90 days.

Out of retreat has come victorious attack . . . out of desperation, toughening confidence . . . out of weakness, power.

The turn toward victory has not been cheap. In the 90 days since that dismal rainy afternoon near Osan, the U. S. has sustained more than 20,000 casualties, and there will be more before the final victory shot is fired.

To anyone who has watched Korea during the last 90 days, crtain impressions emerge:

▶The remarkable speed with which the U. S. turned the course of the war; the speed with which, figuratively, the muscle grew on the arm which was so scrawny three months ago.

▶The power, thrust and mobility of the North Korean army when it was at its peak, despite the fact it was under constant United Nations air assault and had, the great majority of the time, no air force of its own.

▶The inflexibility of the Red Army and its passion for butting its head against a wall.

▶The courage of the American marine, soldier and sailor and other United Nations forces here.

▶A feeling of quick victory, born the day Seoul fell, after the Eighth Army and Tenth Corps forces had linked up to form the Seoul-Pusan line.

A good many believed the Reds had no further forces with which to fight and expected them to give up. Their failure to do so has taken some of the luster off that victory gaze which appeared in many eyes when Seoul was recaptured.

Liquid Commodity

THE tinkering with the octane rating of commercial gasoline which will follow government restrictions is of interest to every automobile owner. Fortunately, the interest is unlikely to stir up ill feeling so far as engine performance is concerned.

The U. S. Bureau of Mines reports a step-up of octane rating from 74.2 since the end of World War II to 82.4 during last winter. Thus, a substantial step-down is possible without widespread effect on most automobile engines.

Even on the engines most likely to ping with lower-octane gasoline, the effect will be limited to the engine's sound. There will be no important effect on performance or maintenance. The latter, in fact, may be improved.

The age of the gasoline engine in which most of us are living, in the sense that we couldn't get along without gasoline, has made a basic commodity out of what once was only a kind of fuel. Any tinkering with gasoline becomes as important, or more so, than tinkering with the composition of bread, for example.

That is a pat comparison. When the composition of a loaf of bread is altered, everybody is interested. But the alteration usually is too slight to be noticeable. The only question it raises is why there is no alteration in price. That seems likely to be the only question which will be raised if the octane rating of gasoline is lowered by government order.

No Demonstration Needed

EVERY MAIL and press dispatch brings a new warning from Washington that the new law to control subversives will be turned into a legal snafu.

The prospect is further darkened by the announcement of eight of the Democrats who sustained President Truman's veto that they will advocate its immediate revision when Congress reconvenes.

No demonstration is needed to convince the citizens of the United States that lawyers who specialize in public law can make a farce of this new act. They will have the assistance of the special genius of pettifoggers whose income is derived from spotting cute legal wrinkles in behalf of the Communist party itself.

It is to be hoped, however—in behalf of the United States—that in the legalistic scramble, there may be some lawyers who will concentrate on the purpose of the anti-subversive law, instead of spending all their time looking for loopholes in its construction. There is a great deal more at stake than a golden opportunity for the legal mind.

Louisiana was the top state this year in production of strawberries, with 22,000 acres and nearly 500,000 crates. Arkansas was next with 14,000 acres and was followed by Tennessee and Kentucky, respectively.

Some mountain peaks on the moon are higher than those on the earth. Peaks in the Leibnitz Mountains attain 26,000 to 33,000 feet. Mt. Everest is 29,000 feet high.

Henry County, Illinois, is known as the "hog capital" of the world. It leads all other counties in the nation in hog production.

Behind The News

By George Sokolsky

What's Good For The Goose . . .

AS REGARDS Europe, Dean Acheson has formulated a policy which is understandable, namely, that the United States will sustain the western European nations, excepting Spain, and such Mediterranean nations as Greece and Turkey against both the blandishments and military force of Soviet Russia.

The omission of Spain is a holdover from the successful propaganda in this country of Soviet Russia during the period of collaboration. From a strictly American standpoint, it is an error.

This policy is to be pursued at any cost and in disregard of what those countries may themselves do, on the assumption that the conquest of the entire continent of Europe by Soviet Russia is against American interests. In addition, it is clearly Mr. Acheson's view and sentiment that it is a function of the United States to maintain Great Britain and whatever government exists there, including the present Socialistic government whose policies are often antagonistic to ours.

In pursuit of this broad view, since the Potsdam conference, the United States has adopted the Truman Doctrine of Containment, the Marshall Plan, the North Atlantic Alliance, and the European Rearmament Plan, all of which cost the United States money and none of which has yet created an adequate will to resist Soviet Russia among continental nations.

—:—

IN ASIA, Mr. Acheson has at no point indicated a similar sureness of touch. Apparently, Asia confuses him. Whatever policy he pursued in Europe, he took an opposite view in Asia.

For instance, in Europe he supported governments in Greece and Turkey which are no better and no worse than the government of Nationalist China. The bad was accepted with the good on the assumption that it was to our interest. In China, he demanded such purity as cannot be found on the New York police force, much less in Kansas City.

And because Chiang's government was, according to Mr. Acheson, corrupt, his policy was so guided that Soviet Russia was permitted to conquer that country — which obviously could not have been to American interests if a similar conquest in Europe is not to our interest.

Similarly, whereas in Europe we denounced spheres of influence and set up the Berlin airlift as a protest against the attempt to expand the Yalta and Posdam decisions into a sphere of influence, in Korea, Mr. Acheson not only abided by a sphere of influence marked by the 38th Parallel, but was about to withdraw American interests, and had withdrawn American troops, prior to what was near to a vacuum in June of this year.

So came the Korean war, the Russians directing a satellite into an undefended area. When the full record appears, it will be shown that Acheson was not ready for this and that our early defeats were due to an intention to withdraw from Korea and from Japan as well, throwing Asia to Russia that there might be more strength to prevent Russia from taking Europe.

—:—

THE FALLACY in this idea is that Russia can take Europe any time she pleases, but that Russia does not please to involve herself in a European war until Asia is beyond doubts hers. And the reason for such a policy is that Asia is more important to Russia; can guard her storehouses of natural wealth and her great new industries; can provide her with a trainable and competent manpower that can overpower an effete Europe.

For this must be noted in the Korean campaign: Those North Koreans could and did fight and gave every evidence of having achieved skill in the use and manipulation of mechanized means of war. Such peoples as the Chinese, Koreans, Mongols, Kalmuks, Uzbegs, and other Asiatics are the Russian fighters of the future.

For this reason, India, which has contributed nothing to the Korean war and thus far, less than nothing to world peace, assumes the role of Russian sponsor in the United Nations.

It is because the Indians, being Asiatics, know that Afghanistan is already a Russian sphere, and Mongolia and Turkestan, Russian satellites. Therefore, Pakistan and Kashmir cannot risk Russia's displeasure — and India is next. Mr. Nehru is buying an insurance policy.

But what about the United States? Are we to lose the war against Korea as we lost the war against Hitler?

(Copyright 1950, King Features)

Moment Of Challenge

By David Lawrence

THE KOREAN episode in world history is not ending—it is just beginning.

When the fighting ceases, the United Nations will have before it the biggest challenge it has ever faced — to get the facts as to what motivated the aggression, how the plot was carried out, and who were the conspirators.

To appoint a commission merely to hold elections and establish a new governmental machinery for the entire republic is a necessary step. But it is far from adequate. Another commission of inquiry which can expose all the facts about the preparations made by the North Koreans, where they got their munitions, their military advice would go far toward preventing another case of aggression.

There are, moreover, certain war criminals to be tried -- the men who ordered American boys executed when taken prisoner. These crimes, however, are not all that need to be punished. It is primarily the civilians in the North Korean regime who must take the witness stand and be tried for their crimes.

The communications between North Korea and Russia must be thoroughly explored. It is inevitable that the ties of the North Koreans with the Communist government in China should also be carefully examined.

If the Russian government — which almost everyobdy is convinced was the power behind North Korea — gets away with the aggression just committed, then the proceedings of the U. N. might as well be interred along with the archives of the League of Nations which did not venture to enforce international peace.

The U. N. will be taking a risk of giving an impetus to isolationism in America if it debates and argues fine points of international politeness while American families mourn the loss of their sons.

The U. N. now has access to North Korea. It can get the records and put the guilty on trial and if the evidence is conclusive it can in due time place the blame on the Moscow government and raise the question of whether the envoys of that regime shall be permitted to sit in the United Nations with the blood of American and European and Asiatic soldiers on their hands.

It's a moment of great challenge for the U. N.

Reaching Easy Street

New England's Byways Can Suit Your Mood, Taste

BOSTON

LIKE TO BE on "Easy Street"? Well, visit the island of Nantucket. There is an "Easy Street" dotted with cottages near the waterfront.

But, then, you can find a highway or byway to suit almost any mood — or taste — in old New England.

New Bedford has its "Johnny-cake Hill", Marblehead its "Gingerbread Hill", Boston its "Cornhill". All are streets.

"Rocky Pasture Road" in Gloucester really isn't as rough traveling as the name suggests. And "Gee Avenue" in that old fishing port is just a quiet neighborhood.

Even the oldest inhabitants can't give an explanation of how most of these streets got their names.

Of course, Plymouth's streets are easily traceable — such as "Mayflower Street" and "Standish Avenue".

But how about "Anny Mary Brown Drive" in Warwick, R. I.?

With a wealth of quaintly-named highways and byways, Boston has one named for the near-sighted: "Myopia Road" in the Hyde Park district.

And the Hub did all right, too, by George Washington, the father of our country.

There are four "Washington Streets" in the city—also "Washington Street North", "Washington Place", "Washington Square", "Washington Terrace", and "Washington Court".

Boston has a "Joy Street", but the town of Dartmouth goes this one better with "Barney's Joy Road", and Worcester comes through with "Bliss Street".

The New York Dutch influence has left its mark in some western Massachusetts communities with "Van Deusenville Road" in Great Barrington. In the same town there's the simple Anglo-Saxon "Three Mile Hill".

Feel Chummy?

How about "Friendship Street" in Providence, R. I., or "Freelove Street" in Fall River.

Want to ride in style? Try "King's Highway" on Cape Cod. If not, take the "Ox Bow Road" in Charlemont.

It's wise to know beforehand where you are headed, however. "Eden Road" in Rockport leads to "Paradise Rocks"—but "Farewell Street" in Newport, R. I., runs right into a cemetery.

Still Crawling Through

The Race Towards A Catastrophe

By Mark Sullivan

THE COUNTRY is in a raging inflation, the spirit of a race runs throughout it.

Union leaders race to make sure that they be not left behind —when one of them gets a raise, others feel they must demand an equal or greater raise, lest they lose faith with their unions.

Labor leaders as a group race to demand raises, with an eye on the possibility that the administration may use the power Congress gave it to put ceilings on wages; they race to beat the gun of possible administration action.

Labor as a group races with agriculture as a group. The labor leaders cite cost of living as an argument for wage raises; and cost of living, the major factor in which is food, increases as a result of the operation of government price support of farm crops.

After labor has received a wage raise, and the wage raise has been followed by increase in the cost of manufactured goods, the Department of Agriculture uses the increased prices paid by farmers for manufactured goods at the base for a new increase in the prices at which the government supports farm crops.

The inflation presently raging is not a result of the Korean war, the part the war has in it is merely as an acceleration of an inflation that was already strongly under way and was certain to grow worse.

—:—

UNLESS THIS is understood, the war may become a cover-up for deeper causes and may divert the minds of the people from right policies and actions now needed.

The post-war inflation began with policies adopted by the Truman administration after the war ended. One broad policy was that the purchasing power of the country should be increased.

Increase of purchasing power as a policy to be carried out by government was uncalled for and dangerous, for purchasing power at the end of the war was already enormous and contained in itself the danger of inflation.

Within the broad purpose of increasing purchasing power, was a specific policy of encouraging wage raises. Official promulgations of this policy by President Truman and others in the administration were usually accompanied by a qualification. Wage rates should be raised—but the raises should be "non-inflationary", they should not be accompanied by increases in prices of goods.

Sometimes the qualification was that the wage raises should be paid by industry out of profits, in a very limited number of cases this might have been done.

But the administration's qualifications quickly succumbed to practical fact. In industry after industry wage raises took place as a result of demands by labor unions often accompanied by strikes. And in industry after industry the wage raises were accompanied or followed by increases in prices.

This was bound to be, and the administration itself had to recognize it.

—:—

AFTER THE union of steel workers had struck for a wage raise and got one, President Truman himself announced an increase of $5 a ton in the price of steel. From early 1946 on, there was a parallel parade of wage raises accompanied or followed by price increases.

The early administration policy of increase of the country's purchasing power as a government objective was repeated during the mild business recession that took place in 1949.

This time the policy was called increase of the country's "national income". Mr. Truman, in an address at Pendleton, Ore., in May, and on other occasions, took pride in and credit for an increase of a hundred billion dollars in the national income that had taken place during the preceding 10 years; and promised another hundred-billion-dollar increase as the administration's "goal" for the coming 10 years.

In the term "national income" as used by Mr. Truman, some 20 per cent or so of sound fact is made to support some 80 per cent of fallacy.

There can be and always has been some increase in national income due to sound causes—increases of population, increase in number of persons at work, improvements in industrial methods and the like. These are economically sound, they result in increased production of goods.

—:—

BUT OF THE increase in national income that took place during the 10 years preceding 1949, a large part was a mere marking up of wages and prices. Far from being an increase in the production of goods, many of the post-war demands for increased wage rates were phrased by labor spokesmen as "50 hours pay for 40 hours work".

And Mr. Truman's proclamation of another hundred billion increase as a "goal" for the next 10 years was an expression of tolerance for, indeed an invitation to, further marking up of wages and prices.

This began quickly and was strongly under way before Korea came. It is a basic mechanism of the present advance in inflation.

The present stage of inflation, like any advanced stage of any poison or other destructive force, contains cumulative momentum, brings nearer the danger of catastrophe.

How High Is UP?

By Max Hall

HOW FAR ABOVE ground can mankind build?

This year we are stabbing the heavens with new structures of awesome height.

A television antenna in Atlanta has shot up to 1,057 feet.

But the No. 1 skyscraper, the Empire State Building acting as though it were resolved not to be overtaken, is now hurling itself into the New York sky 217 feet higher than before. That is, a television tower is being built on top.

I have been looking into this matter of tall structures, and after talking with engineers and government officials, and consulting reference books, I have written down a list of the seven tallest in the world.

I am not sure this list is accurate. For one thing, there may be—somewhere in the world—tall military towers that are being kept hush-hush for security reasons. But the seven tallest non-military structures, so far as I can make out, are as follows:

1. Empire State Building, New York City, now about 1,310 feet, soon to be 1,467 feet.
2. Television tower at Atlanta, built for station WCON-TV, not yet operating commercially 1,057 feet.
3. Chrysler Building, New York City, 1,046 feet.
4. Radio tower at Budapest, Hungary, 1,030 feet.
5. Eiffel Tower, Paris, 984 feet.
6. Television tower of station WKY, Oklahoma City, 962 feet.
7. The "60 Wall Tower", an office building at 60 Wall St., New York City, 950 feet.

The Busy, Crowded Day

"MRS. ROOSEVELT, resuming her video program, has also signed to take the hour on radio vacated by Mary Margaret McBride, who switches to a new network"—News item.

Mrs. Roosevelt: Let me see; did I get my tickets on the Sheraton express for Lake Success?

Secretary: No; you're taking the Yankee Clipper for Boston.

Mrs. Roosevelt: What's my subject, "How to Prepare a Dinner for a Family of Five on $1.75", or "Should a Teen-age Girl Invite the Football Squad into the House"?

Secretary: You're to treat those subjects on the old Mary Margaret Meadows radio hour.

—:—

MRS. ROOSEVELT: You mean the Lake McBride program, don't you? Or are we both wrong? By the way, have I done my Sunday column?

Secretary: Your column is a daily. Sunday you do the video program, remember?

Mrs. Roosevelt: How things pile up! I sometimes wonder if I shall ever get a rest, heaven forbid! I think I ought to do a radio talk on Margaret McWarren's statement on Korea in reply to the Russians.

Secretary: You mean Warren Austin's speech on NBC or ABC or Station Four or something.

Mrs. Roosevelt: Wasn't Warren Austin replaced on NBC?

Secretary: That was Mary Margaret McBride.

Mrs. Roosevelt: Incidentally, did you buy me that ukele?

Secretary: What ukelele?

—:—

MRS. ROOSEVELT: The one I'll need on the Arthur Godfrey hour. I'm replacing him on one of his programs, am I not?

Secretary: No. There have been no negotiations for the Godfrey hours so far.

Mrs. Roosevelt: How strange! Are you sure?

Secretary: Positive.

Mrs. Roosevelt: Maybe it was Martha Dean or Double or Nothing.

Secretary: Come, come, we must get going. On today's agenda we have a special column, a lecture, two radio rehearsals and those eleven new propositions from Elliott.

Mrs. Roosevelt: Elliott, the dear boy! He NEVER TIRES!

Truman Heads Back To Desk

Vacation Cruise On Chesapeake Ends

CHESAPEAKE BAY, Oct 6 (AP)—President Truman headed back up the Potomac River toward Washington and the end of his first vacation of any length since last Spring

The chief executive and a small party of close aides have been cruising around the Potomac and the Chesapeake Bay on the yacht Williamsburg since last Saturday

The Williamsburg anchored last night inside the mouth of the St Marys River, which empties into the Potomac just upstream from where it in turn flows into the Chesapeake

The schedule calls for the Williamsburg to move up to Blakiston Island, anchoring there tonight, and to complete the voyage to Washington sometime Saturday afternoon.

Presidential Secretary Charles Ross said the President spent a very quiet day yesterday while the Williamsburg moved up the bay from Yorktown, Va Mr Truman had taken a long walk there yesterday morning Mr Ross said he spent the afternoon napping and doing a little work on some official papers

Mr Ross told newsmen he had no news at all from the chief executive

Greece To Place More Tax On Rich

ATHENS, Greece, Oct 6 (AP) — The Greek government has agreed to launch American-recommended reforms, including a revision of the country's tax structure to place a larger burden on the wealthy

This long has been urged on the country by the Economic Cooperation Administration, which also pressed for a reduction of wasteful governmental expenditures

Failure to comply eventually resulted in a slash of direct American dollar aid to Greece

Paul Porter, head of the ECA in Greece, restated the recommendations in a letter to the government Its economic policy committee yesterday formally accepted them

The committee was scheduled to meet again today to discuss a proposed increase in the Greek army from 122,000 men to possibly 155 000

Better Acoustics In Supreme Court Studied

WASHINGTON Oct 6 (AP)—Judges, lawyers and spectators soon may be able to hear distinctly all that is said in the Supreme Court

Experiments began yesterday with a semi-concealed loudspeaker system in the hope of overcoming complaints against the acoustics in the court's great, marble chamber

The situation is so bad that some of the justices at one end of the high bench frequently are unable to hear their associates at the other end, unless voices are raised

Be sure to cook the gizzard, and heart of a chicken or turkey until they are tender before adding them to the poultry dressing

Pravda Says Businessmen Watched Invasion Of Inchon

MOSCOW, Oct 6 (AP) — Pravda declared today a group of American business leaders watched the Inchon invasion from a U S flagship and later, at a lush banquet in fallen Seoul, celebrated the "transformation of Korea into a colony

The Communist party newspaper claimed Rear Admiral James (presumably Rear Admiral James Henry Doyle, commander of the amphibious assault at Inchon) had brought with him representatives of "the biggest American business firms—Rockefeller, Morgan, du Pont and Harkness".

From the war front Pravda reported that the North Korean command had removed its main forces north

'Such operations," commented Soviet Correspondent Sergei Borzenko do not take place without losses '

Borzenko added that Americans retaking South Korean territory have found only scorched earth All wells have been heavily salted by the withdrawing Communists to polute the drinking water, he said, and thousands of U S wounded lie at night under the open sky "for there are no homes

The Soviet correspondent said the Americans are being forced to call more reserves into Korea He asserted the corps which landed at Inchon was so badly mauled "it cannot fight anymore '

Firm Sues Own Officer After Gambling Spree

NEW YORK, Oct 6 (AP)—A brass fittings firm is suing its vice president—accused of gambling away $300,000 of company money — three alleged bookies, and two purported check cashers for recovery of the sum

The vice president was identified as Walter Freeman, son of the corporation's president, Philip Freeman, head of the Philip Freeman Co

The suit, filed in State Supreme Court yesterday, also named as defendants Arthur "Big Arnold' Arnold, Irving Lazarus and Sidney Kent, described as engaged in the business of bookmaking and betting", and alleged check cashers Max Stark and Larry Label

Ferguson Promises He'll Help Out Farmers

TOLEDO, Oct. 6 (AP) —If Joseph T. Ferguson is elected to the Senate, he says his first big job will be to represent Ohio's farmers.

"You and I know," he told an audience at Celina, O., last night, "that the farmers of this nation constitute the most important single group of people in this country."

Mr. Ferguson, Ohio's Democratic state auditor, comes to Toledo today on the next leg of his campaign for the senatorial job held by Robert A. Taft, Republican.

It is his contention that the record "proves" that Senator Taft is "against" the farmers.

For 12 years, he said, Senator Taft has "fought every move to secure their incomes, protect their markets, or advance their welfare. He has offered arguments against every farm bill before the Senate ever since he has been in Washington".

Among these, Mr. Ferguson listed: The soil conservation program, additional crop storage facilities in 1949, funds for the Commodity Credit Corp., and the rural electrification program.

"But there is a very funny thing in this campaign," he said. "The man who is running for re-election to the Senate is running away from the record."

While Mr. Ferguson spoke, Senator Taft was predicting at Steubenville that he would get more than 30 per cent of the working man's votes this fall.

"Polls taken before the campaign," the senator said in a radio interview, "showed 30 per cent of labor was in favor of the Taft-Hartley law and was for me personally.

"We have been working steadily on it recently, and there is no question in my mind that my share will greatly exceed that amount by Nov. 7."

Truman May Hit Political Trail

WASHINGTON, Oct. 6 (AP)—President Truman, who already has recorded get-out-the-vote speeches for the November congressional elections, will be urged to make a campaign tour if the world situation permits.

Senator Anderson (D) of New Mexico said last night he will ask the President, when he returns from his Chesapeake Bay cruise, to change his no-campaign decision and undertake a stumping tour "if the situation in Korea will stand for it".

Mr. Anderson is executive vice-chairman of the Democratic national committee. He said on a broadcast he would not suggest what states Mr. Truman should visit because "he showed in 1948 he could do that pretty well himself".

The national committee, meanwhile, said the President and cabinet members have recorded talks urging that everyone vote, and that these will be distributed to all radio stations.

War Bride, Children Will Visit In Wales

Mrs. Carl Durham and children, Patricia Lynn and James Edward, of Georgetown sailed from New York today aboard the Queen Elizabeth for a two-month visit with her parents, Mr. and Mrs. Edward Lewellyn, of Cardiff, Wales.

Mr. and Mrs. Durham were married April 20, 1946, in East Liverpool, culminating a romance that began two years earlier in England where he served as an Army corporal. He works at the Crucible Steel Co., Midland.

Mr. Durham and Mr. and Mrs. Philip Hewitt accompanied the party to New York Thursday night.

East And West To Meet

TOLEDO — The modes of the east and west will meet in Iraq when Willys-Overland completes a contract for the Baghdad police department. The Baghdad police are replacing the Arabian stallion and the flying carpet with 121 jeeps.

Claims Of Idle Show Decline

No Increase Seen In Number Hunting Job

The employment picture in the East Liverpool district continued bright during September, Harry L Dinsmore manager of the Market St office of the Ohio State Employment Service, reported today in his monthly survey

Claims for unemployment compensation continued to decrease and there was no noticeable increase in the number hunting jobs

The average weekly number filing new or renewed claims for unemployment benefits dropped from 39 in August to 19 last month while the average number filing on continuing claims fell from 211 to 118

There were 623 seeking work last month compared to the August figure of 621 Job openings also increased from 110 to 112

Some 313 persons secured work through the office in September, Mr Dinsmore said but explained that 153 were seasonal agricultural workers, mostly apple pickers and 14 were handicapped persons The number securing work in August was 135

Laborites Steer Clear Of European 'Pool'

MARGATE, Eng, Oct 6 (AP)—Britain's Labor party voted almost unanimously today to steer clear of the Schuman plan to pool Europe's coal and steel The plan was named for its originator, French Foreign Minister Robert Schuman.

The party, at its annual conference, turned down the idea of Britain's entry into such a plan —as has the Labor-ruled government previously — because it would require them to give up some sovereignty in controlling the nation's industries to a European federation

Officer's Death Order Studied

Lieutenant Refused To Advance On Foe

U.S. EIGHTH ARMY HEADQUARTERS, Oct. 6 (AP) — A U. S. Eighth Army spokesman said today the case of Lieutenant Leon A. Gilbert, York (Pa.) Negro condemned to death for misconduct in battle, has been placed in the hands of the judge advocate general in Washington.

Gilbert was charged with "misbehaving before the enemy by refusing to advance with his command".

It had been "ordered forward by Colonel Norton V. White, the regimental commander, to engage with North Korean forces, which forces the said command was then opposing".

Gilbert was a member of Company A, 24th Regiment. The alleged offense was committed near Sangju on July 31.

The lieutenant was tried early in September and the sentence of death imposed. This was reviewed by the division commander, Major General William B. Kean, who upheld the verdict.

The spokesman said the judge advocate general will submit recommendations to the secretary of the Army, who will review the case. It then will go to President Truman for final decision.

Gilbert, in a letter to his wife, said he refused to obey the order because it meant certain death for himself and his men.

He asked her to go direct to the President for clemency.

Brotherhood Chosen By Mannington Potters

The National Brotherhood of Operative Potters is the bargaining agent for production and maintenance employees of the United Sanitary Corp. at Mannington, W. Va.

The National Labor Relations Board at Pittsburgh said employees voted 130-11 for the A. F. L. union in the NLRB representation election conducted Tuesday. There were 174 employees eligible to vote.

'Dog Catcher' Lewis Snaps Back At Truman

WASHINGTON, Oct. 6 (AP)—If he were the nation's No. 1 dog catcher, John L. Lewis said yesterday, the first thing he'd do would be to impound "the sad dogs . . . which now infest our State Department".

President Truman had been quoted Wednesday as saying: "I wouldn't apoint John L. Lewis dog catcher."

KILLED IN KOREA. Private First Class William Simmons, 41, father of 10 children, has been killed in action in Korea. Simmons' widow in Mason City, Ill., said there are nine boys and one girl in the family. She said one of the sons, Carl, 19, now is serving in the Air Force in Japan and the eldest son, William, is recovering from wounds received in Korea.

Two Marines Ask To Adopt Boy Who Saved Their Lives

LOS ANGELES, Oct. 6 (AP)—Butch Chango, an 11-year-old Korean whose mother and father were killed by American bombs in the Inchon landing, may find a foster home with two Southern California Marines.

The Immigration Service showed a letter today from Corporal Gordon M. Paris of San Pedro and Corporal Al Poy of Lomita, asking permission to bring Butch back to the U. S. because he saved their lives.

Butch warned them that Red troops were near, the letter said. They asked him how he knew.

"Because the crickets have stopped chirping over there in the rice field," Butch said.

The Marines turned a machine gun on the rice paddy and smoked out a squad of Red Koreans.

City Teachers To Back Levy

Association To Give Funds For Campaign

The East Liverpool Teachers' Association voted to contribute funds to promote passage of the 5-mill school operating levy at its opening meeting Thursday afternoon in the choir room at the Memorial Auditorium. Ira Sayre, president, was in charge.

The levy, which the association is supporting actively, will take the place of 3-mill and 2-mill levies which expire this year.

Merrill Hall is the association levy promotion chairman.

Mrs. Adelene MacBurney and George Hargraves were chosen delegates to the Northeastern Ohio Teachers' convention Oct. 27 in Cleveland. Alternates are James McGowan and Wayne Furrer.

A donation was made to the Community Fund and Bert Dawson discussed the state-wide salary schedule for teachers.

Mr. Sayre related highlights of the National Teachers' convention he attended last summer in St. Louis.

The next meeting is Dec. 7.

Crushing Defeat

Red Terror Fizzles As Austria Stands Fast

VIENNA Austria Oct 6 (AP) — Communism suffered one of its most crushing recent defeats in Europe as Austria returned to normal today after two days of Red terror

Trains were running on schedule again Streetcars operated unhindered, and 50 000 striking Reds went back to work

Ten days of Communist efforts to foment a general strike to terrorize the country to isolate its capital and perhaps to set up a rump government were abandoned at midnight

The Communist leaders called off their ineffective two-day-old general strike and within minutes Red demonstrators took down barricades which yesterday closed all but one of Vienna s main rail lines and froze traffic from the capital into the Soviet zone

The Reds gave up in the face of calm resistance by the rest of the Austrians who since the 12th Century have sat at the crossroads of the East and West and repeatedly have thrown back eastern aggression

The bulk of the country s laborers ignored the Communist strike call The non-Communists courageously battled fanatic young Reds for control of factories power plants transport facilities and government buildings

The Reds said they called off their strike because of western pressure

A purge of Red leadership was definitely in the cards as a result of the fiasco But that was of secondary importance More important was that Austria would remain the West s easternmost stronghold on the fringes of Russia s defense line in Europe

The failure of the Communist attempt showed that only direct aggression by Russia might win this country to the Red fold This the Soviets apparently were not ready for

Kickoff—7:45 p. m.
Place—Patterson Field.

Bent on snapping back from two straight reversals, the Potters will tackle a ponderous Toledo Devilbiss eleven tonight at Patterson Field. The kickoff is billed for 7:45.

Coach Wade Watts' Blue and White gridders will be outweighed from 15 to 20 per man, and if the turf is soggy and footing is precarious they'll be placed at a great disadvantage in trying to push the ponderous Tigers out of the way.

Scouting reports indicate the invaders are big but slow—at least on the forward wall. The backs aren't slow, nor are they exceptionally fast.

The Tigers' defensive line will scale more than 190 pounds while the offensive forwards will hit 180. By far, it'll be the biggest team the Potters will face this season. In the past, they've turned back teams that were as big.

Coach Watts said he is likely to make two changes in his starting backfield, shifting Danny Skaleski to quarterback and moving Eddie Oliver into left half, a post formerly held by Skaleski. It's an offensive move to gain additional punch on the attack.

Bob Sullivan and Len O'Hanlon will return to their regular positions at right half and fullback, respectively.

A veteran quartet of ball carriers will function for Coach Luther Hanshue, the former Newark mentor.

Captain Gary Miehls, who does about everything but carry water, will direct the team from quarterback. He weighs a solid 160. Rol Kwiatowski, 185, has been assigned the left halfback slot in Hanshue's T-formation scheme, with Pete Wright, 152, at right half and Bob Atkins, burly 185-pounder, at the plunging spot.

The behemoths on the line will be Cletus Haupricht, a mammoth 255-pounder, and Center George Leow, giant 242-pounder.

The Potters again will be the underdogs, but it doesn't mean that Toledo will be heavily favored. Quite the contrary if the field is dry and fast. But the Blue and White will have to play one of his better games if they expect to chalk up their second victory in four starts.

The Tigers, in pre-season dope, were regarded as the team to beat in the tough Toledo City League. To date, they've won two of three. Against an outside foe, Detroit River Rouge, the Tigers won handily, 27-0, but then lost to Toledo Scott in what was termed an upset, 27-7, before rebounding last week to trim Toledo Central, 13-7, in another league battle.

Tonight's game is the first between the two teams.

Grade Champs Nipped, 13-12

Failure to make an extra point after two second half touchdowns cost the defending champs of the grade School League their first loss as East End defeated Downtown, 13-12, Thursday afternoon at Patterson Field.

Trailing, 13-0, at the half, the defending titlists scored touchdowns in the third and fourth quarters but failed on both extra points.

East End took command, in the contest when Bill Fey connected on passes of 30 and 35 yards to Left End Miller Bailey in the first and second periods, respectively. Bob Barrickman plunged for the extra point that proved to be the margin of victory.

Downtown came storming back in the third session when Joe Fox heaved a 40-yard pass to Frank Powell, and in the final session Bob Griffith connected on a 35-yard pass to Powell. Attempts to run for the extra points failed.

Ex-Liverpool Athlete Enters Bethany College

Donald E. Rea, son of Mr. and Mrs. William C. Rea, 1154 Pennsylvania Ave., has entered Bethany College, Bethany, W. Va., on a scholarship.

The freshman is a 1950 graduate of East Liverpool High School, where he earned three letters in track, three in cross-country and one in basketball. He also was sports editor of the High School yearbook, president of his freshman class, vice-president of his sophomore class and a member of the Fourth Estate, a journalism society. He plans to study for a career in journalism.

Dodger Manager Fined

DUNN, N. C., Oct. 6 (AP) — Burt Shotton, manager of the Brooklyn Dodgers, was arrested here Wednesday on charges of speeding 70 miles an hour. Shotton paid court costs totaling $11.15, and proceeded on his way to Florida.

Tractor Speeder Jailed

CALDWELL, Ira. — Benjamin C. Ashby did 90 days in jail and paid $100 on a drunken driving charge. The stiff sentence was handed down by Justice of the Peace W. S. Maxey when officers said Ashby was careening down the highway on a tractor.

Bengals Eye Toronto As First Victim Tonight

Devilbiss Big, Strong, Scouts Say

East Liverpool coaches cited the Toledo Devilbiss football squad as a powerful team and stressed the size of the line when they gave scouting reports during the meeting of the Blue & White Nonpareil Club Thursday night at the N.B.O.P.

Assistant Coach George Florin, who scouted Toledo last week, told about 100 members of the club the Potter's may come up with a victory due to the fact East Liverpool may be a little faster. Coach Florin said the three big boys—Tackle Cletus Haupricht, 225, Center George Leow, 242, and Tackle Ray Ritlicher, 218—will prove a problem to the smaller Potter linemen in blocking.

Coach Doyle Nutter, who also scouted Toledo, said the visitors use a lot of off-tackle plays.

Head Coach Wade Watts told the club he was not at all pleased with the way his team played last week against New Philly. He said the boys will be in better condition for this game with the exception of Quarterback Hugh Chronister. Coach Watts also expressed the thought it would be tough to go through the center of the Toledo line. He said the boys are out to prove to the fans they can play better football.

Films of the New Philly game were shown by Coaches Florin and Lou Venditti.

During the business meeting conducted by Harry McConville, president, the club voted to support the renewal of a 5-mill school levy to be voted on at the Nov. 7 election.

Dave Jenkins and Robert Kincaid, co-chairmen, announced plans for the football game between the Potter Plebes and Steubenville to be, sponsored by the club on Oct. 27. Mr. Jenkins said the game will start at 7:45 p. m. and the East Liverpool High School Girl Band will perform.

John Covert was named to head a committee to plan a parents' night at the Oct. 25 meeting.

Mr. McConville reported the membership now exceeds 450.

Liverpool Harriers Win

Jack Vodrey, sophomore sensation, paced the East Liverpool High cross-country team to a 21-34 triumph over Aliquippa Thursday afternoon as the Potters opened the season at the Highland View course.

Trailing Vodrey who covered the distance in the record time of 10 minutes, 12.3 seconds, were Barry Berman and Dick Scott, both of Liverpool. The old record was 10:16 held by Ray Griffith.

Petrowski and Stern of Aliquippa placed fourth and fifth. Thornberry of Liverpool was sixth, Powell and Ross of the visitors were seventh and eighth, Crawford of Liverpool finished ninth and Tucker of Aliquippa 10th.

Bob Duke of Wellsville ran fifth, but his position didn't count since he was the only Bengal running.

Coach Merrill Hall announced four of his 1949 cross-country team have qualified for the Bethany College varsity team.

They are Ray Griffith, who equalled the Bisons' course record in trials staged recently. He covered the four and five-sixth miles in 26 minutes, 55 seconds.

Tom Beadle ran second to Griffith in the trials, Don Rea was third and Johnny Eyres was eighth.

They will run against Geneva College this afternoon at Geneva in the first meet of the season.

Sabath, Racing Stable Owner, Dies Suddenly

PHILADELPHIA, Oct. 6 (AP) —Al Sabath, owner of the famous Alsab Farms racing stable and the great horse Alsab was stricken fatally Thursday at his suite in a downtown hotel.

Sabath, 57, lived at 77 West Washington St., Chicago.

He was here for the race meeting at Garden State Park in Camden, N. J., which is operating simultaneously with the World Series.

Sabath became ill at the hotel and died before he could be taken to a hospital. An attending physician reported Sabath apparently died of a coronary thrombosis.

Drake's 1949 football team was penalized 103 times for 917 yards, a new college record.

Queen To Be Honored

Chester Homecoming Includes Pep Rally, Grid Game, Dance

A gala affair has been arranged for Chester High's annual homecoming this week end, starting with a big pep rally tonight at 7 at the High School.

The big event will be climaxed when the Panthers battle Jefferson Union in the homecoming game Saturday afternoon on the upper Sixth St. gridiron. The kickoff is scheduled for 2:30.

Highlighted pre-game ceremonies will be the crowning of the homecoming queen. The queen and her court will be presented at a dance Saturday night at the High School. Dancing will be from 8:30 to 11:30 and is open to the public. Alumni are urged to attend.

Candidates for queen are Mirian Riley, Betty Jane Reed and Marian Pugh. Junior attendants will be Sue Wilson and Gayle Kennedy.

The homecoming committee include Miss Kennedy as chairman, Miss Reed, Dona Kay Howard, and Mrs. Dorcas Johnston, Miss Josephine Bonessi and Leo Lusk, faculty members.

The dance committee is comprised of Noreen Bennett as chairman, Phil Tridico, Sue Wright, Tom Simcox, Dick Bryan, Tom Wehner, Bruce Powell and Miss Sara Thomas, faculty member.

Homecoming events are being sponsored by the Student Council.

Coach Continues Service Club Tour

Coach Wade Watts was guest speaker at the Kiwanis Club luncheon Thursday at the Travelers Hotel, continuing his tour of the city's service clubs.

He described his coaching system and called football a great character builder.

"We're going to have a creditable season" he said, "even though the teams we'll meet seem to be improved over last year". He called Toledo Devilbiss, tonight's opponent at Patterson Field, "big and respected in Toledo".

After a question and answer period, Coach Watts introduced his assistants — Doyle Nutter, backfield; George Florin, line; Lou Vendetti, freshman coach, and Don Mohr, ends.

W. G. Fordyce, vice-president, presided and Fred Stevens, program chairman, introduced the coach.

James Blazer of the D. M. Ogilvie & Co. was inducted into the club by Ralph Betts.

Dayton Reorganizes

DAYTON, O., Oct. 6 (AP)—Reorganization of the Class A Dayton Indians of the Central League was underway today under the new affiliation of the St. Louis Browns' farm system. All players of the Dayton club—which formerly had a working agreement with the Cleveland Indians — are being reassigned. Five have gone to the San Diego club in the Pacific Coast League. San Diego is affiliated with the Indians.

Only Three Games Slated, 4 Saturday

Having generated their best offensive of the young season last week in their losing cause to Wintersville, the Wellsville Bengals tonight have designs of making the invading Red Knights of Toronto their first victim.

The kickoff at Nicholson Stadium is scheduled for 8.

Bob Mundy who came up as one of the surprise packages in the Bengal attack last week, is scheduled to get the starting call at quarterback, replacing the injured Joe LaScola. Mundy's passes featured the attack against Wintersville.

The rest of the backfield will stand pat, Coach "Chuck" Sell has decided. George Whittaker will open at left half, Francis Vallera at right half and Dick Sulkoske at full.

The only change on the line will find Ken McAdoo at right guard in place of Frank Carter.

Riddled by graduation and the service, the Knights have dropped three, the same number as the Bengals. So, barring a tie, one of the losing streaks will come to an end in tonight's fray. Last fall the Gem City eleven pinned a 33-0 defeat on the Orange and Black.

The Wellsville attraction is the headliner on a three-game district schedule this evening.

Lisbon, tied by Boardman last week, will be favored over an East Palestine eleven that was mauled by Salem in its last start, 33-0. The Blue Devils whipped the Bulldogs, 14-7, a year ago. The Tri-County rivals will be striving for their third triumphs of the season.

Columbiana, trounced in three straight, will take on a non-league foe in Springfield Township. That game is scheduled for the Clippers' gridiron.

Tomorrow's program is the heaviest Saturday schedule of the season.

The feature attraction will be Chester's homecoming game with Jefferson Union.

Other district elevens will play abroad. An afternoon tilt will find Newell at Cameron, while tomorrow night Midland, winner of three of four games, will travel to Monaca, and Salem, the only district team with a perfect slate, will invade Canton for a brush with Timken High. The Quakers have three straight under their belts.

Newell will be after its second win in four starts, having tied one, lost one and won one.

District Grid Games

Tonight

*Toledo Devilbiss at East Liverpool.
*Toronto at Wellsville.
*Lisbon at East Palestine.
*Springfield Township at Columbiana.
Leetonia, open.
Salineville, open.

Saturday

Only Miracle Can Save Hitless Phillies Now

Intersectional Grid Tilts Dot College Scene

NEW YORK Oct 6 (AP) — East meets west and north meets south in a series of intersectional football games this week which should provide a lot of action as well as a test of strength

Pennsylvania, a perennial power in the Ivy League travels clear across the country to clash with California's Rose Bowl eleven and Maryland's rebounding Terrapins visit East Lansing for a crack at the high-flying Spartans of Michigan State

These two are the standouts of the intersectional programs and two of the best matches of the loaded schedule

Pennsylvania rated 20th in the nation teed off last Saturday with a 21-7 win over Virginia while California, ranked ninth, made it two in a row by belting out Oregon 28-7

Michigan State assured itself of a successful season by knocking off Michigan 14-7 That came after the Spartans had beaten Oregon State, 38-13 As a result State vaulted into second place behind Notre Dame in the Associated Press' first poll of the season last week

Maryland was ambushed by Georgia, 27-7 but came back to whip Navy's spirited club 35-21

Saturday Frank Leahy's lads at Notre Dame play host to Purdue a school which usually comes up with its best effort against the Irish Purdue didn't look bad in losing 34-26, to a strong Texas aggregation Notre Dame has a 39-game unbeaten streak going

Army, which displayed a fleet of breakaway backs in beating Colgate 28-0, meets Penn State under new Coach Rip Engle

Oklahoma which ran its winning streak to 22 by conquering Boston College, 28-0, entertains Texas A & M

Southern Methodist high up in the No 3 spot following its air bombardment of Ohio State's Rose Bowl kings by 32-27, figures in another of the intersectional jousts The Mustangs hit the road to tangle with woeful Missouri Missouri was clipped, 34-0, by Clemson

Kentucky, the country's No 6 team, has a breather in Dayton

Other major intersectional tilts on the card include Villanova-Miami (Fla) tonight and the following Saturday settos Boston College - Mississippi, Northwestern-Navy Dartmouth - Michigan, Tulsa-Georgetown Pittsburgh-Ohio State, and Louisiana State-Rice

Other major games Saturday include

East — Columbia at Harvard, Brown at Holy Cross Rutgers at Princeton Cornell at Syracuse, Fordham at Yale, Boston U at Duquesne and Western Reserve at Colgate

South — Florida-Georgia Tech, North Carolina - Georgia, North Carolina State-Clemson, Tennessee-Duke Vanderbilt-Alabama, VMI-Richmond; Virginia-VPI Washington & Lee-Citadel and Wake Forest and William & Mary

Midwest — Iowa-Indiana, Wisconsin-Illinois Kansas State-Marquette Colorado-Kansas, and Nebraska-Minnesota

Southwest — Arkansas-Texas Christian

Far West—Southern California-Washington State, Colorado A & M-Wyoming, Utah-Brigham Young, and Utah State-Montana State

Yanks 2-Up, Series Switches To New York

By JACK HAND

NEW YORK, Oct 6 (AP)—Only a miracle comeback can save the hitless Phillies now as the World Series moved into cavernous Yankee Stadium with New York holding a 2-0 edge One home run blast by the same old Joe DiMaggio put the Phils on this desperate spot

★ ★ ★

Not since the 1921 New York Giants, has a club won after losing the first two series games And that was back in the days of the best-of-nine series

Talk of four straight' buzzes in Yankee ears with the odds 1 to 15 on the American Leaguers to cop their 13th world title Some 70 000 fans will be on hand for the Phils first visit

Yankee Ed Lopat (18-8) is a 5 to 12 choice over either Ken Heintzelman (3-9) or Bob Miller (11-6) for today's third game at 1 p m (East Liverpool time) Manager Eddie Sawyer will pick his starter in the clubhouse before batting practice

No miracle—but only a timely base hit—was needed to rescue the Phils in the first two games when they lost 1-0 and 2-1 in 10 innings on DiMaggio's home run Now they are fresh out of pitchers like Robin Roberts and Jim Konstanty who can be counted on to chill sluggers like the Yanks

Sawyer has no complaints about the excellent jobs of his first two pitchers They contained the Yankee power hitters like Yogi Berra and Johnny Mize They put the shackles on DiMaggio until he rocketed Roberts' pitch into the upper left field seats yesterday afternoon But this is the end of the line Now the batters figure to cut loose

Lopat, a chunky lefthander with a knuckler screwball, slider and a little bit of everything except a fast ball, may not match Vic Raschi and Allie Reynolds in effectiveness Still in the vast confines of the stadium, Lopat can be expected to pitch his usual steady, capable game To succeed he must continue to check the righthander power of Del Ennis and Andy Seminick strangely silent in the early games.

It could be that Sawyer already has made up his mind to pitch Miller but doesn't want the youngster to worry about the job overnight A handsome rookie who made the big hop from Terre Haute, Ind to the majors in one season, Miller won his first eight starts His best pitch is a sinking fast ball Since mid-September the 24-year-old rookie has been troubled by a sore shoulder In his last two starts he pitched fine ball in the early innings but weakened badly

Heintzelman a grey-thatched southpaw of 35 years, might have the nothing stuff to fool the free-swinging Yanks He didn't win a game from May 8 to Sept 15 but hung up 17 victories in 1949 If Heintzelman pitches, Manager Casey Stengel probably will shuffle his New York lineup to play Billy Johnson at third base instead of Brown

'We can't be any worse in the Yankee Stadium said Sawyer last night Maybe our kids will snap out of it We'll play our usual game and score some runs —I hope '

Sawyer summed up the Phils troubles neatly when he said it looks like we need four bases on balls to score

It took a bad-hop single over Coleman's head to drive in the lone Phil run of the series in the fifth inning yesterday Time after time they left the big run on base In the eighth and ninth they hit into rally ending double plays

After DiMaggio's homer they still had a chance to bounce back against Reynolds They moved pinch-hitter Jack Mayo to second base with one out in the last of the tenth But he died on second as Richie Ashburn and Sisler failed

DiMaggio's blow his first series hit, ruined Roberts The Yanks nicked the Phil 20-game winner for 10 hits Still he stayed off disaster until Stengel's "big fellow' lined his seventh World Series homer into the laps of the gaping customers

WORLD'S BEST NOW BETTER THAN EVER!

"PRESTONE" ANTI-FREEZE BRAND IMPROVED AGAIN!

DEALERS, ENGINEERS, AUTOMOTIVE SPECIALISTS—

Here's the Inside Story:

Every day some new developments in the car industry make higher operating temperatures necessary and create greater pressures. The cooling system of the average passenger car today pumps as much as 4000 gallons of water each hour—it's enough heat to warm a house in zero weather.

Performance requires improving Prestone brand anti-freeze to meet these conditions. Laboratory tests and years of actual use in cars, trucks and buses under all kinds of driving conditions have proved that Prestone brand anti-freeze is the only one that can give you all the protection you need for both new cars and old.

Best Protection Against Rust and Clogging

Prestone anti-freeze starts the entire cooling system with a microscopic film which shields it from rust and corrosion. It keeps the system free of rust scale and sediment which cause clogging. Prestone anti-freeze contains no stop-leak chemicals to plug up leaks. It will not boil away or evaporate.

Best Protection Against Foaming

Prestone anti-freeze stops the loss of cooling system pressure which causes foaming. Foaming is the overflow of pressurized water and anti-freeze. It is completely prevented by Prestone anti-freeze. Foaming is the cause of many costly repairs to the water pump, cylinder head and block.

Complete All-Winter Protection

Only Prestone anti-freeze can give you all these protections: Best protection against rust and clogging. Best protection against foaming. Best protection against freeze-ups. One shot lasts all winter!

Ohioans Trail Outsiders In Grid Warfare

COLUMBUS, O., Oct. 6 (AP)—If Ohio's collegiate grid squads are going to break even with out-of-state squads this year, they'll have to get busy.

The Bucks have gotten themselves into such shape that they must win 10 of 15 interstate frays this week end to step out front in the season's race.

In 33 games played thus far against foreign foes, the Ohio clubs have won 14, lost 18 and tied one. The opponents have rolled up 599 points to 496 for the Ohioans and have blanked the Bucks six times while being whitewashed only three. One was a scoreless tie.

The Ohioans get none the best of it this week, hitting the road for 10 games in Indiana, Kentucky, Pennsylvania, Michigan, Illinois and Connecticut, while entertaining five foes from Pennsylvania, Indiana, New York and Illinois.

Only nine of the state's 35 squads have escaped defeat in the infant campaign, and some more records are due to be sullied this week as Xavier and Miami meet at Oxford, and Muskingum invades Tiffin for a tilt with Heidelberg. All are unbeaten and untied.

The week-end slate:

Friday night — Cedarville at Bluffton, Clarion Teachers at Mt. Union, Anderson (Ind.) at Marietta.

Saturday — Pittsburgh at Ohio State, Otterbein at Denison, Wittenberg at Capital, Ohio U. at Butler, Xavier at Miami, Wooster at Kenyon, Oberlin at Allegheny, Hiram at Olivet, Colgate at Western Reserve, Wilmington at Gannon, Toledo at Western Michigan, Ohio Wesleyan at Connecticut, Bradley at Bowling Green, Findlay at Wheaton, Ill.

Saturday night—Muskingum at Heidelberg, Ashland at Defiance, Akron at Baldwin Wallace, Dayton at Kentucky, Kent State at John Carroll, Case at Washington-Jefferson, Ohio Northern at Detroit Tech.

Live Clean And Work Hard, Myers Tells Hot Stove Kings

Live a clean life and work hard if you are going to pursue baseball as a career, Harry "Hi" Myers of East Liverpool, former big league star, told members of Newell's Ohio state Hot Stove League champions at a banquet Thursday night at Woody's Restaurant in Newell.

More than 50 attended the affair sponsored by the Newell American Legion in honor of the champions.

Jackets were presented team members by the Legion, and the team presented their manager, Tony Laneve, with a gift. Manager Lanever spoke briefly, commending the team for its fine play.

Toastmaster Joe Dickey, who introduced the principal speaker, also introduced William Mitchelson, president of the East Liverpool Hot Stove League chapter, Lawrence Zollinger, chapter secretary and president of the City League, and Lee Grimm, commander of the Legion post. All spoke briefly and praised the young baseball players for their excellent work.

Rev. C. W. Diehl, pastor of the Newell Church of Christ, gave the invocation.

The 1950 University of Mississippi football team boasts only six seniors, four of them regulars.

British Aid Plea Faces Rejection

WASHINGTON, Oct. 6 (AP)—The United States is about to turn down a three-year British rearmament program calling for approximately $1,500,000,000 in free American aid.

A note is being drafted at the State Department which would rule out any long-term commitment to Britain until specific plans have been agreed upon by all 12 North Atlantic Pact nations.

Department officials said last night the note will specify that the United States believes an "interim arrangement" is all that can be decided upon now.

Officials who have been studying the British proposal for nearly two months indicated they believe the amount asked by Britain is too large in view of the results that can be expected.

They hold the view that the rearmament program should be tackled by stages, and that no long-range planning can be entered into with individual countries until each treaty member knows in detail what and how much it must produce for the common defense against Communist aggression.

Medical Aid In Korea Called 'Finest Yet'

HOUSTON, Tex., Oct. 6 (AP)—The Defense Department's medical director said the death rate among wounded in Korea is "by far the lowest in any similar campaign" in U. S. history.

Dr. Richard S. Meiling attributed this to air evacuation of wounded, use of whole blood and plasma, and the co-ordinated use of all military medical facilities.

Craftsmen have been making American crystal glass by hand for more than three centuries.

Yoohoo, Drivers, Recall Birthday To Obtain Permit

East Liverpool motorists apparently are forgetting the requirements of the new Ohio law for driver s licenses

The sale of the permits is beginning to pick up slightly, city deputy registrars said today, after a slow start in September

Under the new law, the 1950 licenses expire on the first birthday after last Sept 30

Licenses can be purchased 30 days before the birthday but must be secured by the birth date or the motorist is not a legal driver If the license is not secured within three months after the birthday, a driver s examination must be taken

Some motorists have been making inquiries concerning the expiration date of the old permits they said The new licenses are good for three years

The permits are on sale at the Columbiana County Motor Club on Market St, and by Robert Owen at the East End Hardware
